It is equipped with 4 keys for: unlocking, hands-free connection, lighting control ladders and external seat activation/cycle. Independent adjustments for ringtone, speaker tone, color, and screen brightness. Color 4 2-WIRE video intercom with TFT monitor. It can be mounted from the wall. It is equipped with an opening button plus 4 programmable keys (O-1-2-3), which is set up with the appropriate configuration of the operating mode. The volume of the ringtone can be adjusted and added. It has hidden functions in speech, professional operation and lock status (signal with special LED). White. Wall fixing bracket supplied with equipment Hands-free 2-wire video intercom, 5-inch color LCD color display. The device has 2 physical keys for control of the main video intercom functions – closing the response and call – and 3 touch keys that allow unlocking, activation of the external/loop location and privatization of the user's most frequently used quick action – e.g. ladder lamp command, intercom, additional lock activation and general activations. The device is equipped with a side handle to adjust the color, brightness and contrast screen, sound volume and call volume. There is a signal LED to exclude the call. Installation can be done with a special wall bracket (with equipment) or accessory table slots (2 x 344692) – available for purchase separately. The device must be configured. Outlets AND INSTALLERS
